**Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:**

On June 6, 2013, the agency received a report regarding a five month old infant admitted to the hospital with retinal hemorrhaging and hemorrhaging to the brain. The child was brought to day care and the provider noticed the infant acted differently and was less responsive. The child seized and was transported to the hospital via ambulance. Medical professionals diagnosed the child as sustaining an abusive head trauma caused by rapid acceleration and rapid deceleration.

**Findings by agency, including maltreatment determination and material circumstances leading to incident:**

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate physical abuse to the child by an unknown maltreater. The agency determined the child as unsafe and temporary physical custody was taken and the child was placed in a foster home. Subsequently, the child was then placed with a relative. The agency filed a Child in Need of Protection or Services petition and the case remains open for on-going case management services.
