**Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:**

On September 13, 2015, the agency received a report regarding a 3-month-old infant brought to the hospital with head injuries. Medical professionals who examined the infant suspected head trauma due to the child's presenting symptoms, so the infant was transported to another hospital. Law enforcement was contacted and initiated a criminal investigation regarding the infant's suspicious injuries. No criminal charges have been filed in this case, but the investigation remains open.

**Findings by agency, including maltreatment determination and material circumstances leading to incident:**

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate maltreatment of physical abuse to the infant by the mother. Medical professionals determined the infant sustained head injuries and diagnosed the infant with Abusive Head Trauma. The agency determined the infant's twin sibling to be unsafe and initiated a protective plan which included that the sibling reside with the maternal grandparents while the assessment was completed. At the point of the infant's discharge from the hospital, the infant was also deemed to be unsafe. Temporary Physical Custody was taken of both children by the agency and they were placed with the maternal grandparents. A Child in Need of Protection or Services petition was filed and the case remained open to provide ongoing case management services.
