Case Tracking Number: 160216-DSP-MILW-605 **Agency:** Division of Milwaukee Child Protective Services

Child Information (at time of incident)

Age: 1 Year Gender: Female Male

Race or Ethnicity: African American/Black

Special Needs: None

Date of Incident: 02/16/2016

Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On February 16, 2016, the agency received a report regarding a 1-year-old infant pronounced deceased in her home. Law enforcement was contacted and initiated a criminal investigation into the infant's unexplained death. Medical personnel determined the infant died as a result of acute methadone intoxication. No criminal charges were filed in this case as law enforcement was unable to determine how the infant ingested the methadone. The criminal investigation was closed.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate neglect of the infant by an unknown maltreater. While medical professionals determined the infant died as a result of acute methadone intoxication, it was not determined how the infant ingested the methadone.

The agency found the infant's siblings to be safe and they remained in the care of their mother. The case was closed upon completion of the Initial Assessment and no service referrals were made.
