Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On October 9, 2016, the agency received a report regarding a one-year-old infant brought to the hospital with head injuries. Medical professionals who examined the infant suspected head trauma due to the infant's presenting symptoms. Law enforcement was contacted and initiated a criminal investigation regarding the infant's suspicious injuries. Medical personnel diagnosed the infant with Physical Abuse-Abusive Head Trauma. No criminal charges have been filed in this case, but the investigation remains open.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate maltreatment of physical abuse to the infant by the infant's mother's boyfriend. Medical professionals determined the infant sustained head injuries and diagnosed the child with Abusive Head Trauma. The agency determined the infant and her siblings safe and they remained with the mother. The agency closed the case upon completion of the Initial Assessment and no service referrals were made.
