Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On November 27, 2017, the agency received a report regarding an alleged incident of physical abuse and neglect that occurred on November 23, 2017. The report alleged physical abuse to a 5-year-old child, 3-year-old child, 2-year-old child and 1-year-old infant by their mother and neglect to the 1-year-old infant and 1-month-old infant by their mother. Law enforcement was contacted and initiated a criminal investigation. Medical personnel diagnosed the 5-year-old child, 2-year-old child, and 1-year-old infant with injuries that were non-accidental in nature. Medical personnel diagnosed the 1-year-old infant and 1-month-old infant with failure to thrive and medical neglect. No criminal charges have been filed in this case, and the investigation remains open.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate physical abuse to the 5-year-old child, the 2-year-old child, and the 1-year-old infant by their mother. The agency found a preponderance of the evidence to substantiate neglect to the 1-year-old infant and 1-month-old infant by their mother. The agency found insufficient evidence to substantiate physical abuse to the 3-year-old child and 1-month-old infant by their mother. At the time of the incident, the 2-year-old child was in her mother's care under a trial reunification. The other children resided in their home with their mother. All five children were deemed unsafe, taken into Temporary Physical Custody and placed in a foster home. Children in Need of Protection or Services Petitions were filed and the case remained open to provide ongoing case management services.
