Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On September 15, 2022, the agency received a report involving injuries to a 7-year-old child. Law enforcement was contacted and initiated a criminal investigation. Medical professionals indicated the injuries were consistent with non-organic failure to thrive. No criminal charges have been filed in this case, and the investigation remains open.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical professionals to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate maltreatment of neglect of the child by the father and the stepmother. The Initial Assessment completed by the agency found insufficient evidence to substantiate physical abuse of the child by the father and the stepmother. Medical professionals indicated the injuries were consistent with non-organic failure to thrive. The agency deemed the child and the child's half-siblings unsafe and initiated a Protective Plan. Subsequently the Protective Plan was terminated for all of the children. The child was taken into Temporary Physical Custody and placed with the child's 9-year-old half-sibling's mother. The child's 6-year-old and 4-year-old half-siblings were deemed safe, and they remained with the child's father and their mother. The agency deemed the child's 9-year-old half-sibling safe, and he remained in his mother's care.
