Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On February 21, 2023, the agency received a report regarding a 5-year-old child brought to the hospital with a serious injury. The child was later pronounced deceased at the hospital. Law enforcement was contacted and initiated a criminal investigation. The Medical Examiner's Office determined the death to be accidental. As a result of law enforcement's investigation, the child's father and a relative were criminally charged with Neglecting a Child (Consequence is Death) as a Party to a Crime. A criminal charge is merely an allegation, and a defendant is presumed innocent until and unless proven guilty.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical professionals to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate neglect of the child by the child's father and the relative. The Medical Examiner's Office determined the death to be accidental. The agency deemed the child's sibling unsafe and initiated a Protective Plan with the mother. The child's father and the relative were criminally charged and court-ordered to have no contact with the child's sibling. Subsequently, the mother was assessed as protective, and the child's sibling remained with the mother. The agency closed the case upon completion of the Initial Assessment, and no service referrals were made.
