

Decision Support Model Based on the Child and Adolescent Needs and Strengths (CANS)

Child/Youth Mental Health Screen

The algorithm for a child's Mental Health Screen shall be used to inform decisions related to seeking immediate mental health services for children in out-of-home care. For users with access to the eWiSACWIS database, the system will perform the calculations for you to arrive at the mental health screen determination of the child.

A rating of at least one '2' or '3' on one of the following:		
Adjustment to Trauma	Psychosis	Suicide Risk
