

Child and Adolescent Needs and Strengths (CANS) Foster Care – Ages 5 to 21

The following table illustrates the items that are included in the calculations for the algorithms for the Supplemental portion (payment) of the **Foster Care Rate** for a child/youth ages 5 to 21. The results for each algorithm will be calculated by eWISACWIS and the results will be shown either on the CANS Results tab or the Foster Care Rate page.

Supplemental Rate: Calculates the supplemental portion of the foster care rate based on ratings of '2' or '3' on specific items highlighted the color "teal." The supplemental portion of the foster care rate is calculated by adding up the items rated a '2' or '3' and multiplying them by the supplemental rate multiplier.
